# Getting you the right part at the right time. Every time.

Formed in 1986, AIS is led by its founder, Mohammed Mahmoud, a veteran of Ethiopian Airlines and part of the provisioning team for the First commercial JET fleet of the Airline in 1962. Our company is an FAA AC 0056A / ASA-100 accredited distributor located at the global aviation hub - The New York JFK International Airport.

We believe what separates AIS from the rest is our capacity to identify credit the worthiness of our client airlines and cut the barrier of putting the cart before the horse by demanding cash in advance while the client's lifeline airplane is grounded. Efficiently servicing your need for high quality, reliable spare parts and supplies.

# A world of parts

With over 40 years of experience, Kapco Global has grown from a specialist supplier of seals and gaskets, to a global provider of aerospace parts and distribution services.

As a leading stocking distributor, we understand that for aircraft operators, maintenance providers, manufacturers and our supply chain partners, time is a precious commodity. We know how complex aerospace maintenance is. Our job is to make your life easier, by providing the right parts, in the right place, at the right time.

**Because time matters**

Within this product guide, you will find a small sample of our products. We welcome the opportunity to share our full inventory and to discuss your needs. For more information and to discover what Kapco can do for you, simply email [sales@aeroindustrialsales.com](mailto:sales@aeroindustrialsales.com) or call us at 1.718. 949.3300 for more detailed information.

# Looking forward

As the aerospace market continues to develop and grow, we are well positioned to deliver whatever our customers need: a more flexible, proactive and efficient distribution service, based on intelligence, integrity, intimacy and innovation. As new market opportunities emerge in Asia, the Middle East and South America, as well as in mature markets, we look forward to supporting our aircraft operators, maintenance organizations and OEM customers – wherever they may be.
